above-identified application as follows:

IN THE CLAIMS:

Claim 1. (Thrice Amended) A hydrogenerator plant for connection to
high voltage transmission or distribution network comprising: at least one rotating
electric machine for high voltage coupled to a turbine via shaft means, said
electric machine comprising at least one winding [comprising] formed of a
conductor including a plurality of insulated conductive [strands] elements, and at
least one uninsulated conductive [strand] element [; a solid insulation] covering
surrounding the [conductors] conductor in electrical contact with the uninsulated
[strand] element and said at least one winding being directly connectable to the
